Reclamation Meets Separation:

Italian Specialist TFR cooperates with SMG – World Market Leader for Reclamation Machinery.

Through the exclusive cooperation agreement with TFR and its mobile and compact Infill Recycler called M-Infill, SMG is able to deliver a holistic solution for artificial turf market.

With the M-Infill, which was developed specifically for the precise separation of various infilling materials in order to be able to further process those resources, while minimizing waste and environmental impact, SMG expands its portfolio for the reclamation of artificial turf and contributes another part to the value chain.

Luca Bacchi (CEO TFR) and Tobias Owegeser (CEO SMG) standing in front of the M-Infill.

Handshake after the signed contract.

More Information about the M-Infill will follow soon – stay tuned!
